Editor's Note

Though the Halloween season is meant to be one of naughty fun, don't forget that there are very real ways to get hurt online.

In the September issue of *Cybersex*, I made the call to publish an article entitled *Players & Heartbreakers*. It was to prove to be a controversial decision.

In the article the author, *Player1*, detailed how he went about manipulating the perceptions and emotions of other players for his own sexual and egotistic gratification, and how he did so with the full knowledge that his actions caused heartbreak to many of his targets.

More than a few readers found the article highly offensive, feeling that the inclusion of the piece in *Cybersex* only served to normalize, legitimize and excuse behaviors which they found downright sociopathic. My decision, they argued, only helped to encourage users to play mind games with each other, thus making adult online worlds like 3DX Chat more threatening, and perhaps even serving as a gateway to even worse predations. This possibility did occur to me before I chose to publish the article, but I went ahead and did it anyway, and there were two reasons why.

The first was because *Player1* only agreed to share his methodology with me on the condition that he remain anonymous. He knew that if his name on 3DX Chat was revealed, the girls he toys with would realize how they were being used and abandon him. With him being outed, it would become pretty much impossible for him to keep "playing the game", thus ruining his fun. In short, *Player1* can only do what he does because of the ignorance of his targets, and the less girls know about how he operates, the easier it'll be for him to succeed.

I made the bargain and published the article, but not

because I support what *Player1* is doing. I included it because I felt that the more people are aware of *Player1's* tactics, the better they'll be able to defend themselves against these kind of players.

The other reason I made the call to publish *Players & Heartbreakers* is because of all the members of 3DX Chat I'm one of the youngest (turning 25 this month). I lack the life experience of many of my peers, and I know full well that my personal ethical, religious and political beliefs do not match those of even my closest friends online.

I do not fancy myself some Generation Z Buddha, somehow gifted with the wisdom and authority to lecture others how they should think, feel and act. That said, I do consider it my job as editor to inform our readers so that they can come to their own conclusions. My role is to present information and ideas. Nothing more and nothing less.

Perhaps I made the right call in publishing the article. Perhaps I've made a huge mistake. But whatever the case, the fact remains that there are people online who will use you. Who don't care if they hurt you. Who, in fact, even find sadistic pleasure in bringing you unhappiness. And in the end it's up to you, as an adult, to defend yourself.

So here's wishing everyone a great October and a very happy Halloween. The virtual world is a frontier full of excitement, surprises and wonderful people. Enjoy and explore, but never forget... *here be monsters.* ♥

Blood Play: Vampires

Vampires are dark, sexy and intensely erotic, especially when played right.

By RubyGloom

With October finally here and Halloween on its way, your mind might have wandered to some of your darker, wilder fantasies when it comes to sex. And since half the fun of cybersex is revving up the kink in your sex life, now might be the ideal time to delve into erotic roleplay of a particularly fun and naughty kind: Vampires.

There have been many iterations of vampires over time, from grotesque, psychotic monsters to melodramatic eternal teenagers who sparkle in sunlight. Out of this spectrum there's a particular species, however, that best personify the deeply wicked and sensual undead that hold the most widespread appeal.

But how do you get started with vampire roleplay if you've never done it before, and how far can (or should) you take it?

Embrace Your Passions

The first thing to remember is that all vampires started off as people, then were transformed by a bite, dark magic or curse. And though undead, vampires are still fundamentally human in their emotions and psychology. What makes a vampire different is their passions—vampires simply feel things deeper than most mortals, and be it their thirst for blood or desire for sex, it is their appetites that define them. So to get into the role the best way to start is by imagine an exaggerated version of yourself.

Imagine if every experience you had was heightened. The scent of a lover's perfume utterly intoxicating. The feel of their skin like the smoothest silk. Your arousal rising inside you so that it can barely be denied. Imagine how you'd behave and think and act, and you're

going to have a great guide to roleplaying a vampire convincingly.

Reveal Your Legend

Having a good profile is always important, and that's especially true if you're planning to roleplay a vampire. You want to invite potential playmates into a storyline so they know where to begin, and when it comes to the sexy undead it's a good idea to make your background as sensual as possible. Here's some examples...

Once a courtesan to the nobility of imperial France, Marie didn't realize that she'd attracted the attention of an elder vampire. Watching from the shadows he waited for her to reach the peak of her beauty and sensual skills before turning her, enshrining her erotic perfection for all eternity. Now, centuries later, she still haunts the world's hottest clubs, forever seeking out lovers worthy of her attentions and, possibly, the gift of immortality.

The decadent lord of a kingdom long lost to the pages of history, Marcus has always been a man of dark and erotic passions—his thirst for sexual adventure insatiable despite innumerable encounters. Wandering the earth for centuries, he's enjoyed the company of countless women and explored virtually every kink and fetish imaginable, and though deeply refined, his lust has never diminished.

Jayne was always a hellion, her life lived to the maximum as she roamed America on her Harley, a lone wolf who fought and fucked as she pleased. Desired by many she was too wild to be tied down, and it was only a matter of time before she pushed things too far. Left dying on the street after a deal gone wrong, she was saved at the last moment by the bite of a dark stranger. Ever since she's roamed the highways by night, seeking the one responsible for her new unlife, and any good time that happens her way.

The trick is to make yourself exciting yet relatable,

with a clear idea of how you're likely to behave and what kind of encounters you're looking for. Use the examples as inspiration if you're stuck for an idea, or pick a concept from the list below:

- A shadowy and debauched billionaire who bought his immortality, and now intends to enjoy every second of it.
- A slinky thief who used to travel the world, seducing the rich and famous before relieving them of their possessions—only to wind up turned when one of her marks turned out to be a vampire.
- A suave Casanova seeking an apprentice—

someone to not just seduce, but to train in the erotic arts centuries of lovemaking have allowed him to master.

- A virtuous woman unwillingly turned, who discovered that rather than drink the blood of mortals she could survive by absorbing their sexual energies. A far more enjoyable arrangement for everyone concerned.

Claim Your Domain

Some people are really into vampires, and would love to roleplay with one. Some people aren't. By having a sexy and inspiring profile you're inviting the former to approach you, but you don't have to stop there. Creating a roleplay room and opening it to the public is a great way to advertise your presence, while at the same time "setting the stage" for play.

If you're a builder your character's backstory can provide no end of inspiration for the room you create, or you can download several great rooms on 3dxmodz.com. Examples include...

Amsterdam Red Light District 1.0.0 by Amy LaRouche

This incredible build captures the Amsterdam night perfectly, and is exactly the kind of place modern vampires would haunt.

Halloween Location 2018 1.0.0 by Desiree

Perfect if you're going for a creepy yet fun vibe, this amazing haunted castle is a great all around build for vampires.

Palais erotique 1.0.0 by Nym

A sprawling, dark estate, this build feels at once grand and menacing. A good choice if your vampire is particularly aristocratic.

Organize a Coven

Birds of a feather flock together, and the same goes for the undead. As you meet others into vampiric roleplay, why not invite them to form a coven?

When you're an undying immortal who drinks blood to survive it can be hard to find friends (and lovers) you can relate to, which is why it makes perfect sense that vampires would tend to congregate with their own kind. A coven is simply a loose coterie of undead who enjoy each other's company, though you can make it as informal or complex as you wish.

Covens also have the advantage of opening up new roleplaying experiences to their members. Listed below are just a few examples:

Grand Galère

At these gatherings vampires take turns telling stories of their erotic exploits to one another, each one trying to spin the most interesting tale of the night. The accounts can range from the light and humorous to the twisted and terrifying, and are a perfect way to showcase your devilish imagination to your fellow fiends.

Turning Hunt

Coven a bit small? A turning party is a uniquely vampiric activity, with the undead setting out on a mission to find a suitable human to make one of their own. This can be both fun and challenging as the coven's members wander the virtual world seeking prospects, and then doing their very best to seduce them.

Blood Orgy

Exactly what it sounds like. Vampires are creatures of intense passions, and when they get together it can lead to some incredibly hot group encounters. Just make sure no daywalkers crash the party...

Have Fun

Erotic roleplay adds a whole new dimension to cybersex, giving you the chance to explore your wildest fantasies and let your imagination (and libido) run free. And out of all the types of roleplaying you can do, vampiric characters are some of the most interesting and accessible. Everyone is already familiar with them, and there's enough books, movies and video games out there to inspire a thousand scenarios.

This October is the perfect time to try something new, and who knows? If everyone who reads this article gives vampiric roleplaying a try, the virtual world might just become the domain of the sexy undead.

Why the Best Sex is Cybersex

Cybersex is not only real, it's better.

By SinthiaX

Most people, especially in the mainstream media, have a ridiculously narrow definition of sex. Although we enjoy all manner of naughtiness including oral sex, anal sex and digital penetration, only penis in vagina sex is typically considered to be "the real thing."

Small wonder that many still don't consider that cyber sex counts as "real" sex. However, just as we've accepted technology into other parts of our life, it's time to consider that doing it digitally (in the online sense, not the fingerbanging sense) is not only real sex, but the very best kind of sex there is.

But before we get into why cybersex is objectively better than regular flesh and blood mating, let's look at the three main reasons why cybersex is undeniably real.

Variation

Cyber sex is every bit as varied as physical sex. There's sexting, roleplaying, sending dirty pictures, video sex, camming and even virtual escorts. And in each case participants are exposing our minds to each other with the goal of achieving sexual pleasure. Just because we can't touch yet (and there are plenty of entrepreneurs furiously working to fix that) doesn't change the fact that cybersex is simply the exchange of sexual pleasure by a new means, using our brains rather than our fingers, tongues, vaginas or penises.

Consequences

Though cybersex is never going to end up with you getting an STD or a pregnancy, having online sex does can definitely have serious emotional and social conse-

quences. When we engage in cybersex with a person long enough we tend to fall into online relationships. Develop very real feelings. And when breakups occur, they sting ever bit as much as when they happen in the real world.

Likewise, if we're sending racy pictures of ourselves to others it's pretty easy to lose control of who they're distributed to. Just like an incurable STD, compromising photos can follow you for life, and in some places can even sending the wrong message to the wrong person can land you in prison (or at least divorce court). If cybersex wasn't real, then none of this would be happening.

Orgasms

Some say that cybersex isn't real because of the physical absence of your partner. After all, when you're between the virtual sheets in a virtual world like 3DX Chat or Second Life, you can't actually see, hear, smell or touch your lover.

Yet the fact remains that there is another real, thinking, feeling human on the other end of those messages, and you are taking explicitly sexual actions with the intention of turning that person on and, hopefully, getting them off. Any definition of sex which isn't based on that primary motivation seems like a weak one.

In short, cybersex is real sex in purpose, motivation, interactivity, consequences and by legal definition.

Harder, Better, Faster, Stronger

So now that the case has been made for cybersex counting as real sex, it's time to turn to the next

claim—that it's better than the kind of sex you'll have in real life. Again that assertion will get all kinds of pushback, but when you really start to examine the facts, it's no surprise that so many people who get into cybersex wind up strongly preferring it to non-virtual encounters.

Advantage #1: Anonymity

Nobody online knows who you are unless you choose to tell them, meaning you can make a sexual connection with another person while maintaining your privacy. How much you want to reveal about yourself is completely in your control, and you even have the option to assume a completely different online persona either to live out your fantasies, or to better suit those of your lovers.

Advantage #2: Freedom

With cybersex you can shed your inhibitions and live out your wildest and darkest fantasies—experiences

that might be highly expensive, immoral, dangerous, illegal or even outright impossible in real life. In the virtual world you have almost infinite freedom compared to the real world, and can enjoy a sex life far more exciting than that of even the richest playboy.

Advantage #3: Creativity

With freedom comes the opportunity to explore and invent and experiment, allowing the opportunity for sexual encounters far richer than real life generally allows. Any setting is available. Any kink or fetish possible. And that's not even touching on the possibilities when it comes to roleplay. They say the brain is the largest sex organ, and in no type of sex is your mind more involved than cybersex.

Advantage #4: Connection

Yet another huge benefit of Cybersex is that you have an effectively unlimited number of lovers you can connect with, from all over the world. Anyone who's tried online dating knows how limited prospects can be in your geographical area, but online distance means nothing and there are no borders. This means that your chance of finding really compatible lovers is far higher than in the real world, which in turn makes for hotter, richer and more meaningful sex life.

Advantage #5: Perfection

In real life we all have physical imperfections, with even the most beautiful or handsome people eventually being diminished by injury, illness or simple aging. Very few guys have a body like Adonis, a 10 inch cock and the stamina of an Olympian, and very few women can compete with the airbrushed supermodels we're endlessly compared to. But online, none of that matters, because you can look any way you wish.

Cybersex levels the playing field, allowing the plain, the old, the handicapped and the shy a chance to express their sexuality in way the real world simply doesn't allow for.

Advantage #6: Safety

You can't catch an STD through cybersex, nor can you get pregnant. Rape is an impossibility, as is getting hurt while trying some particularly acrobatic sexual position or ambitious penetration. And while that alone is a massive improvement over conventional sex, there's also the benefit of simply being able to relax and enjoy without having to deal with the hassles of everything from birth control to bruised behinds.

Sex of the Future

All over the world, millions of people are discovering that they can have access to a sex life infinitely superior to their real life one, and all at an affordable cost, with complete anonymity and security. And that's a trend that's not likely to reverse anytime soon.

Because of cybersex countless people are experiencing not only amazing orgasms, but new relationships and experiences they never would have had otherwise.

And unlike sex in the real world, intelligence and creativity trump youth and looks, for in the virtual world it's what's in our heads and hearts that make us special. And that alone is why I much prefer cybersex to any regular world encounter. ❤️

Modapocalypse Now?

Does 3DX Chat's 64-Bit client mean an end to mods?

By GreekGod

The new 64-bit client for 3DX Chat has brought a lot to the game. Spectacular new lighting settings. Upgraded graphics. Lots of sexy new poses. And the standardization of many features once only available through mods. Without a doubt, people like Rochi and AlexRyder have directly contributed to the development of the game by showcasing what could be done to improve the original client. Sadly, mods like Rochi's have just gone the way of the dodo bird, and that's not by accident, but design.

It's not the fact that the client is 64-bit that the modapocalypse is here. Programmers could still bring all kinds of weird and wonderful new features to the game if that were the only change. But as it turns out the developers (presumably Gizmo) had something very different in mind.

A decision was made to choose ill2cpp compilation as the game's scripting backend rather than deal with the mono system they were using. That makes conventional mods impossible, or at least so exponentially more difficult that nobody will ever make them.

Why was this decision made? The most likely answer is security. Admittedly, if someone with the programming skills decided to cause chaos, it wouldn't have been that hard to do. Imagine a troll who could spam everyone on the game continuously, even if they were placed on ignore.

That said, 3DX Chat was "insecure" for years, and none of that ever happened. On the contrary, modders have only worked to improve the game. And there are those who are now grumbling that the only reason their mods were blocked was because they were mak-

ing the developer look bad—adding more in the way of content and features than was ever provided though the official client.

Whatever the case, the decision to move to ill2cpp compilation brought about the long dreaded modapocalypse, and that means the end of an era. Though also, possibly, the beginning of a new one.

Already programmers are working on new mods that tap right into DirectX, and while these won't be able to alter the game itself, they'll be able to overlay the game's interface, thus adding new "passive" features the developers didn't include. Examples include a clock display, an events calendar and an external messaging system. All of these, and more, are still possible, and may be coming to 3DX Chat soon.

The reaction to the developer's decision to incorporate ill2cpp compilation has been mixed, ranging from complete indifference to some players choosing to quit the game entirely, tired of what they consider to be a callous and disrespectful attitude on the part of the developers.

3DX Chat is still an amazing game, and without a doubt it has improved tremendously over the years. But if and how it continues to be shaped by the efforts of modders remains to be seen. The modapocalypse is here, and its impact may very well shape the future of the game. ❤️

The Cyber Sutra

The 21 most popular sex positions in 3DX Chat, and how I figured that out.

By JamieSweet

3DX Chat has no shortage of sex positions (so long as you're not looking for lesbian threesomes), but not all are created equal. Some are certainly more popular, and some are specifically preferred by one gender over another. With the help of my good friends Betty and Bob, I have undertaken an unscientific poll to see which ones are the most favored, and tried to gain some insights into why.

With each person polled, I asked them to give me their three favorite positions, assigning each chosen pose a point, then tallying those points to create a picture of the kind of sex men and women seem to enjoy most.

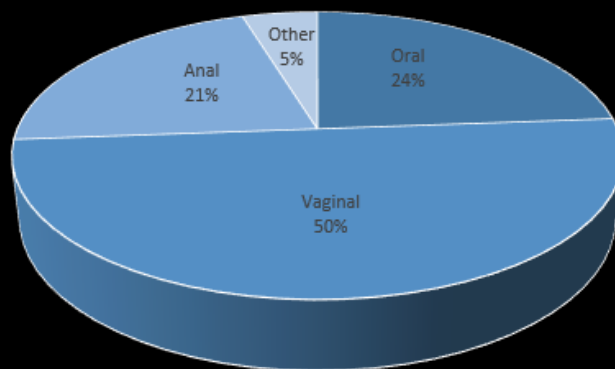

Oral Sex

Oral sex positions were well liked by both men and women, though girls showed a significantly stronger preference for it, with almost a third of their favorite positions falling into this category, compared to less than a quarter for men. Interestingly the favorite positions didn't seem to break out by who was pleasuring who, with about as many men enjoying cunnilingus as women enjoying fellatio.

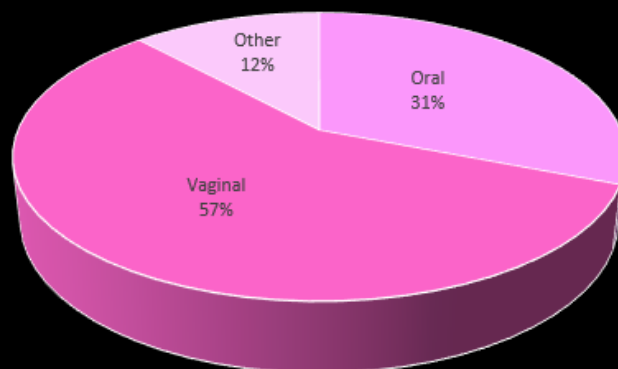

Vaginal Sex

For both men and women, vaginal sex positions were the clear favorites, with a full half of the men's picks being of this category, and women choosing vaginal positions more than all other types combined. Both seemed to prefer poses that allowed lovers to be face-to-face.

Men's Favorite Sex Positions

Women's Favorite Sex Positions

Anal Sex

Without a doubt, men far prefer anal sex to women, with over a fifth of men's picks falling into this category, while not a single woman chose an anal position as a favorite. This isn't to say that women are adverse to this type of sex on 3DX, but it certainly didn't rank high among their most preferred poses. Unlike vaginal sex, men seemed to prefer anal poses in which they weren't facing their partners.

Most Popular Oral Sex Positions

In total, seven oral sex positions were selected by the poll's participants, with the least popular getting selected only once, while the standing blowjob and laying cunnilingus were each chosen a whopping six times, making them two of the most popular sex positions in the game.

STANDING BLOWJOB 2 Male, 4 Female

LAYING CUNNILINGUS 2 Male, 4 Female

SIXTY-NINE 1 Male, 2 Female

KNEELING BLOWJOB 2 Male, 1 Female

RIDING CUNNILINGUS 1 Male, 2 Female

THROAT FUCKING 1 Male, 0 Female

KNEELING RIMJOB 1 Male, 0 Female

Completely unsurprising information about oral sex...

The Centers for Disease Control and Prevention (CDC) stated in 2009: "Studies indicate that oral sex is commonly practiced by sexually active male-female and same-gender couples of various ages, including adolescents." Research also indicates that "males are more likely than females to have received oral sex, whereas equal proportions of men and women have given oral sex."

Most Popular Vaginal Sex Positions

Eight vaginal sex positions were selected by the poll's participants, and interestingly enough, the top two positions were both missionary positions, while the top four all had lovers facing one another. These positions might just be popular because they're the most familiar to players, or perhaps eye contact during sex adds to their intensity.

MISSIONARY 4 Male, 5 Female

RAISED MISSIONARY 4 Male, 3 Female

COWGIRL 3 Male, 3 Female

APOLLO 3 Male, 3 Female

DOWNWARD DOG 2 Male, 4 Female

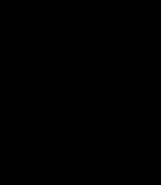

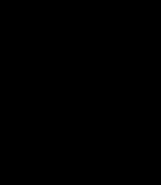

DOGGY STYLE 2 Male, 2 Female

CONCUBINE 2 Male, 2 Female

REVERSE COWGIRL 0 Male, 2 Female

Most Popular Anal Sex Positions

Only four anal sex positions were selected, and unlike the vaginal positions, the majority were with partners facing away from each other rather than towards. Two were rather acrobatic positions which, while no doubt intense, didn't look very relaxing for the woman, though in fairness the final position didn't seem that comfortable for the man.

ANAL CONCUBINE 4 Male, 0 Female

ANAL PILEDRIVER 2 Male, 0 Female

SEATED ANAL 2 Male, 0 Female

PEGGING 1 Male, 0 Female

Most Popular Other Sex Positions

Last but not least, there were two more positions which were both quite popular that didn't fall into any of the other categories, with one being exclusively for girl-on-girl play.

SPREAD EAGLE 2 Male, 1 Female

TRIBBING 0 Male, 4 Female

Conclusions

My research is hardly scientific, but based on the survey it seems the single most popular sex position amongst 3DX Chat players is... the missionary position. Perhaps the single least exotic sexual pose in the universe. Then again, maybe there's a reason it's the most favored and (confession time) it just so happens to be my favorite position too. ❤️

3DX Nightmares

13 dark & twisted erotic roleplay ideas.

By DarkAmber

It's almost Halloween. A celebration of ghosts and monsters. Terror and nightmares. Of things that go bump in the night, and make us look over our shoulders when walking alone down empty, moonlit streets.

My favorite time of year.

And while many will spend the evening attending costume parties, trick or treating or watching horror

flicks, I have much more deviant plans in mind.

There are certain erotic roleplay scenarios that are, to say the least, politically incorrect. Scenes that many would find dark. Twisted. Perhaps downright disturbing. Fantasies good girls and boys are simply not supposed to have. But that begs the question... why not?

Why is it so many of us are happy enough to watch gory murder porn like Saw, Friday the 13th or Hostel, yet we're so timid about letting that kind of darkness creep into our sexual fantasies? Why do we shy away from those erotic nightmares we all have, yet so few would ever admit to?

Me, I'm going to celebrate this Halloween night by not just embracing my inner demons, but getting gang-banged by them. Together with my lover I'm going to let my imagination run wide as a rabid werewolf, and spend the night screaming both in ecstasy and terror.

So how about you, dear readers?

Would you like to join me in exploring the deepest reaches of your most twisted fantasies. To throw off your limits for the night and see just how wicked sexual roleplay can be? If so, then here are 13 ideas to inspire your night. Enjoy...

Roleplay #1: After a year apart, a man's cheating slut of a wife comes home on Halloween night, eager to fuck his brains out and sexually reconnect. A night of passion after such a long absence might seem like a great evening, except for one little thing. It was a year ago that he murdered her for her infidelities and buried her out in the woods.

Roleplay #2: For years a lonely woman has been the

pen pal of a man locked away for a series of darkly erotic murders, but over time he's convinced her that he's innocent of the crimes. She's come to lust for him through his letters, though of course, she knows they'll never be together. Then, one Halloween night, he shows up on her doorstep. He's escaped the prison, and she's about to find out if she was right about him having been falsely accused, or very, very wrong.

Roleplay #3: A bartender serves last call to the only remaining patron—an incredibly sexy raven haired beauty who's been flirting with him all evening. But as he pours her the last drink of the night and they get to chatting, he realizes that she's slowly starting to change. And there just so happens to be a full moon out that night.

Roleplay #4: A pair of astronauts on a deep space mission find themselves doomed as their capsule malfunctions and goes spinning off into the endless void. With only an hour of air left, and an unspoken attraction for each other, how will they spend their last sixty minutes together?

Roleplay #5: As a zombie apocalypse rages outside, a woman and her boyfriend cower inside their boarded up house. Out of food. Out of water. And with only bullet remaining. To make matters worse, he's been bit, and as his skin begins to pale and his hands to tremble, the couple realize that this is going to be their last chance to be together. Their last chance to fuck like there's no tomorrow, because only a miracle will get them through the night.

Roleplay #6: A young man is wrongfully condemned to an insane asylum, and left under the care of a sadistic young psychologist who, unfortunately for him, just happens to be his jilted ex-girlfriend and former dominatrix. What fiendish plans does she have for him now that he's completely at her mercy?

Roleplay #7: Little Red Riding Hood is wandering through the dark and haunted woods to deliver a parcel to her grandmother, a wolf watching as she makes her way down the twisted path. Only in this telling of

the story the big bad wolf is carnal in his desires, and Red Riding Hood is a vampire.

Roleplay #8: A perverted artificial intelligence takes control of a young couple's lives, destroying their careers, ruining their finances and even arranging for warrants to be put out for their arrest. But all that can be fixed, it assures them. In fact the AI can make them rich and powerful beyond their wildest dreams. But first it wants to direct an incredibly kinky porn movie, and it wants them to be its helpless porn stars.

Roleplay #9: A young woman who vividly remembers dying awakens in a brass coffin, neatly displayed in what looks like an elaborate funeral home along with several other women. She can't move however, at least not till the twisted necromancer who raised her from the grave comes to check on her and grants her permission to move. To her horror, she realizes that she's been reduced to nothing more than an undead puppet, and her master has plans on how to enjoy his new toy.

Roleplay #10: A freak snow storm traps two strangers in a remote, abandoned lodge where they find the tattered remains of a journal. According to it an

ancient and terrible spirit inhabits the mountain, and unless it's appeased by a bizarre and twisted fertility ritual it'll take those trapped within its icy domain as sacrifices.

Roleplay #11: A woman's husband comes home from a long business trip, but something seems off about him. Perhaps it's the darkly lustful way he now looks at her. The amount of time he's spending in their basement building something he won't let her see. Or maybe it's that, sometimes, she swears she can see something moving under his skin. Whatever the case, it's Halloween, and he's ready to take her down into the cellar and show her the surprise he's made for her.

Roleplay #12: A married couple with no love life to speak of volunteers to test a new sexual stimulant designed to heighten their libidos back to what they were when they were newlyweds. Unfortunately it turns out to have some unpleasant side effects, not the least of which is uncontrollable desire to sexually dominate each other, no matter how extreme the means necessary.

Roleplay #13: A roguish cat burglar just managed to burglarize a small town's bank, drilling the safety deposit boxes and making off with a fortune in gold, jewels and even a priceless 10th century grimoire. Pity for him that it all belonged to the town's witch, and that unless he can somehow charm her he might very well wind up as her new familiar.

Final Words

Some (or likely all) of the above roleplay scenarios might seem like they'd be very uncomfortable to roleplay. And that's the whole point. By letting the dark side of ourselves slip the proverbial leash, we have the opportunity to share that part of ourselves we always keep hidden with our online lovers.

But if you and your partner can let go of your inhibitions, then you're in for a wild and thrilling evening.

Happy Halloween everyone. And happy, sexy, nightmares. ❤️

Kemistry

Escort of the month.

By JamieSweet

When it comes to treating yourself to an amazing night, you can't go wrong with the girls of White Breeze Escorts. This month Cybersex be interviewing Kemistry, one of the sexiest, and most talented, escorts on 3DX Chat.

Cybersex: So how did you start as an escort?

Kemistry: A friend of mine did the job for a while. We often talked about it, and for me, it sounded very interesting. So I chatted with some of the other escorts, hired some (yes, I did...) and then, one day, I just tried it. It was big fun, so I stayed with it.

Cybersex: So what was it that most attracted you to escorting?

Kemistry: Well, I certainly don't need gifts to pay my bills, so it's not about that. The main thing is that I just love sex. I like to pleasure people and I like to serve them. I'm experimental and enjoy discovering new things. I get horny from making other people horny.

And to be paid, and treated as a paid whore, is a big turn on for me. It's my personal kink, and that's why I can deliver such a good experience.

Cybersex: What are your clients like?

Kemistry: There's no such thing as a "typical" client, but there are a few things many have in common. Most of my clients are discerning, confident men who just want to leave the BS at the door and treat themselves to a fantastic time. Most of them like oral, vaginal and anal sex, and some enjoy extended role-playing. That said, every client is special; each have their personal likes and dislikes, and deserve to be treated as the individual they are.

Cybersex: Why do you think your clients hire you, specifically?

Kemistry: Because they're horny? Okay, seriously, I think the reason they come to me is because I'm flexible and creative. Whatever they need I can deliver.

Some guys are just looking for something quick and fun. They leave the clubs and parties late at night, and just want some pleasure before they retire for the evening. Others are just busy people in real life, and just don't have the time to search 3DX for a good match.

There's also clients who are in relationships but would like a little variety, and as an escort I can provide that no-stings-attached night of pleasure. And lastly there are those with special kinks and desires that need a professional to bring them to life.

Cybersex: Is there anything you don't like about being an escort?

Kemistry: Though I know their heart is in the right place, I don't care for guys who want to rescue me from my "bad life". Who want to be the white knight that straightens me out. Seems like those people want to fuck me, and at the same time change my lifestyle. It's contradictory, and doesn't show much respect for me as a person.

I even had one client who seriously offered to marry me and pay me some gifts every day so that I wouldn't have to work as an escort anymore. That was sweet, but more than a little ridiculous.

Cybersex: Ever thought about working as an escort in real life?

Kemistry: Yes, actually. If I were still a student I'd seriously consider it. But given where I am in my real life and my professional situation, it just wouldn't make any sense at the moment.

Cybersex: Ever experienced any problems with friends or partners because of your being an escort?

Kemistry: Some people unfriended me when they learned I'd become an escort, which I thought was more than a little hypocritical. I don't know how you can play a game like 3DX and yet be that judgemental about other people's sex lives.

Cybersex: What does it cost to hire you?

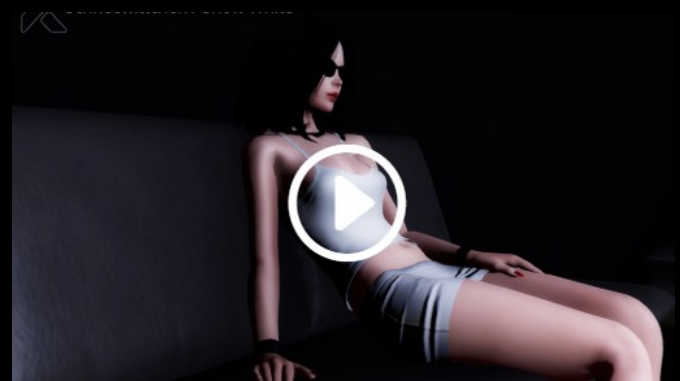

Kemistry: My usual service rate is six gifts for 30 minutes. That's an "all in" price, and it's only for hard BDSM, threesomes and gangbangs that I charge anything extra.

And yes, I'm expensive. There are girls out there who offer everything for a single gift, and that's their prerogative, but to my mind cheap services aren't valued. My clients and I appreciate and respect each other because they recognize I'm worth the price. Someone who's looking to get their cock into the cheapest hole possible really needn't come visit me, or any of the White Breeze girls for that matter.

Cybersex: Aside from being an escort, you're also involved in 3DX porn. Is that correct?

Kemistry: Yes. Lisa (IamTrouble) once allowed me to visit one of her porn shoots and I was really impressed by how professionally she ran things. I discussed getting involved in it with her, and she suggested that I see if I could make a whole movie on my own, the idea being to get some practical experience in every facet

of production and figure out what I could do best.

So for my first two movies I was the main actress, camera girl, editor and director. The films were about my life as an escort, and I tried to give some insights into what it's really like. So far I've done ten movies, the eight with additional actresses/actors and the support of a production team. Some more are in the pipeline.

Cybersex: Anything special you'd like to say to our readers?

Kemistry: Escorts are fun, and if you don't have at least a couple in your friends list you really don't know what you're missing. But whatever you do, don't fall in love with someone like me. You're only going to get your heart broken, guaranteed. ❤️

Wild Play: Werewolves

Werewolves are primal, rough and sexy as hell, especially when played right.

By RubyGloom

Imagine your first change. You have just realized, undeniably, that you are a werewolf. You've heard rumors about your kind and their primal appetites, but you never imagined it would be like this.

You're flooded by new sensations—you can see, feel, and smell things you couldn't before. Your new form has awakened a wild beat to your heart, allowing you to connect with your instincts in way no human can. You are empowered by your metaphysical abilities, by your connections to nature, and by a ruthless drive to not just defend, but expand, your pack.

Werewolves are featured prominently in myths and popular culture. Films, books, and legend portray them as raging beasts under the light of the full moon, ravenously devouring helpless humans and leaving a string of monsters in their wake. In the context of erotica, however, werewolves are interesting because of their struggles to master the beast within them.

Their elemental natures make them the very epitome of the primal desire not just to mate, but to establish sexual dominance. While vampires tend to be gentle and refined, werewolves have neither the time nor patience to play such games. Most are straightforward to a fault, and absolutely uncompromising in their personal quests to put a leash on their otherwise out-of-control hungers.

Roleplaying a Werewolf

Imagine your most primal self. The personality you'd have if all concern for civilized niceties were striped from you, and you were truly in tune with your instincts.

Werewolves are ravenous when they're hungry, parched when they're thirsty and ready to fuck all night when they're horny. There's no apologies or explanations, just raw, core drives and desires just barely contained by their inner willpower, strength or philosophy. Embrace your inner wolfish, wild demeanor and you'll be off to a great start, and with a little imagination you can get past stereotypes and get everything you can out of this exciting type of supernatural erotic roleplay.

Craft Your Story

In popular culture some werewolves are born to packs. Others are infected by lycanthropy, a magical disease which causes a person to unwillingly and uncontrollably transform into a monster. Both can make for a great background, rich in possibilities for intense sexual encounters.

Having a good profile is always a good idea, and that's doubly true if you're planning to roleplay a complex supernatural character like a werewolf. You want to invite potential playmates into a storyline so they know where to begin, and when it comes to the sexy undead it's a good idea to make your background as sensual as possible. Here's some examples...

Having grown up on the deepest forests of Germany, Ulrich is part of a highly isolationist pack of ancient, pure blood werewolves. But all groups need fresh blood, and when grown he was sent out into the world to sire as many children as possible so that they could later be recruited into the family. Thanks to his seductive nature and formidable endowments, he's had no shortage of successes.

A fun-loving escort, Kara had been seeing one of her clients for a few months when, in an especially passionate sex session, he accidentally bit the nape of her neck just a little too hard, drawing a single droplet of blood. It was enough to give her lycanthropy, however, and ever since she's been struggling to control her wild form—a challenge since one of the effects of the magical disease has been her hugely increased libido.

Though kind, witty and sensual when calm, Jason simply couldn't control the rage that filled him when the full moon rose, such was the power of the curse of lycanthropy placed upon his family. Determined to master his animal side, he traveled to India and studied with a Tantra yogi, learning that his destructive anger could be channeled into a creative mating drive. Ever since he has wandered the world, sharing pleasure and training other werewolves in the erotic arts he's mastered.

The key is to give your werewolf a unique and erotic twist, and provide a roleplay concept for your lovers to work from. If you're having issues thinking of something really original, use the above examples for inspiration, or develop one of the following concepts:

- An occultist who read the wrong book, cursed to suffer an immensely painful and rage-filled transformation each full moon until he fathers thirteen lycan children.
- A young werewolf kept isolated by her family for fear she'd hurt someone, who ran away from home when her primal drive to mate became too strong to resist.
- A paranormal hunter who wound up bitten by a werewolf, now struggling to satiate his ever increasing sex drive before it consumes him.
- A stoner chick who discovers she's inherited the curse from her free-love hippie father, but who can keep her deadly desires in check simply by drowning them in endless weed, dance and kinky sex.
- A BDSM Master who's learned to chain his primal hunger for sexual dominance into a refined erotic discipline.

Prepare Your Lair

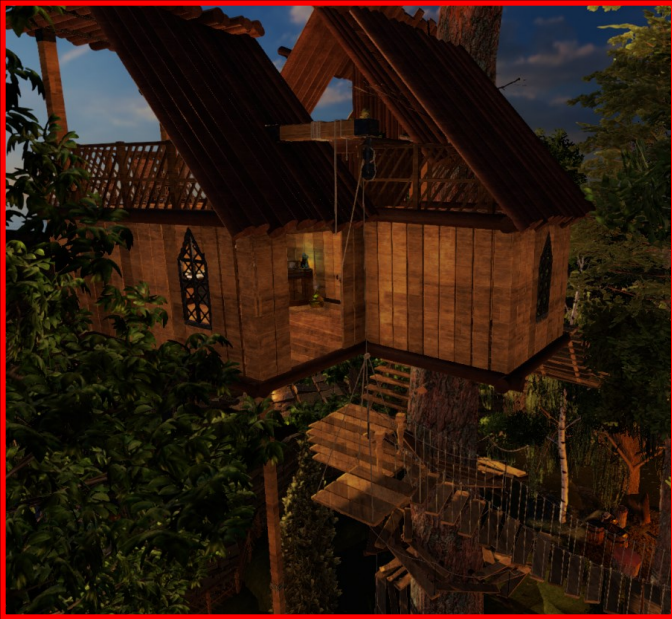

Having a sexy and imaginative profile invites those into werewolf roleplay to come to you, but if you're willing to put in a little work you can be far more proactive when it comes to finding other players who share that kink. Creating a roleplay room and opening it to the public is a perfect means of promoting yourself, while at the same time providing an inspiring location for play.

If you're good at room building your character's background can help you create the perfect play space, but there's always the option to simply download one of

the many suitable builds free on 3dmodz.com. Examples include...

Prismarine Forest 0.8.d by Llavvia

A rich and highly creative forest build, especially good if you want to go for a bit of a fairy tale vibe. Plenty here to explore and enjoy.

Winter Cabin 1.0.0 by AmyLaRouche

You might want to take down the Christmas decorations, but once that's done this remote mountain cabin makes for a great modern werewolf lair.

Old Western Town 1.0.0 by TracyRyan

Werewolves roam the world, including the lonely ghost towns of America. This build makes for an interesting home for lycanthropes with an outlaw past.

Gather the Pack

Wolves are well known for running in packs, and the same goes for their lycanthrope brethren. So as you come across other players who enjoy werewolf roleplay there's no reason you can't form a pack of your own.

Packs can be anything from loose coteries to tightknit polyamorous clans, and offer a range of exciting new roleplay opportunities. If you've got a pack and are looking to get the erotic fires stoked, below are a few scenarios you might find useful.

Trial of Seed

Werewolves want only the strongest of offspring, and given how amorous females can get when they're in heat, the Trial of Seed is practiced by many packs.

Simply put it's a gangbang, with each male taking a turn at mating with the receptive female in a kind of competition to see whose seed will be the most potent. An intensely wild and erotic play for those ready to really embrace their wild side.

Rite of the Bonding Moon

It's always an advantage for a pack to be tight knit, and for a primal being like a werewolf mating can be a great catalyst for that. That's why on the night just before a full moon some packs have a ritual in which males and females are randomly paired off, then go seek their own private corner to get to know each other better. The rite of the Bonding Moon is not only highly sensual, but can be quite romantic and adventurous as well, with nobody knowing who'll they'll end up with until lots are drawn.

Wild Hunts

Both the summer and winter solstices are times of great spiritual significance to some packs of lycanthropes, and auspicious times for conception. That's why many will hold a wild hunt on these nights, in which one half of the pack hunts the other, claiming whoever they catch for a nice, hard session of intense mating.

In the summer solstice males hunt the females, who do their very best to outrun and outwit their pursuers. After all, the harder you are the to catch, the more virile the male who was able to seize you. In the winter the roles are reversed, with the males running while the females give chase.

Release the Beast

Supernatural roleplay can add a huge amount to cybersex, giving you the opportunity to unleash your imagination and explore your most primal fantasies. Though some make fun of it, werewolf play can be both incredibly fun and rewarding, providing a com-

mon basis for amazing online friendships. Best of all, since virtually everyone is familiar with general werewolf legends and lore, there's no need for a lot of explanation, and there's a plethora of lycanthrope related media out there to inspire your imagination.

With Halloween just around the corner, there's never going to be a better time to try running with the wolves. ❤️

Miss October: Snaggletusk

Meet Snaggletusk, our 3DX player of the month!

By JamieSweet

There are plenty of non-human avatars on 3DX Chat. Vampires. Werewolves. Demons. Nekos. Elves. And though they're rare, there are also orcs: those cannon fodder bad guys of virtually every fantasy novel and movie. Commonly viewed as violent, unsophisticated and dimwitted, their erotic potential might seem limited to hardcore sex of the

About me

🌺Aloha!🌺 I'm Jasmine! I love fantasy! I'm facinated by the worlds, characters and adventures it inspires! That's why I role-play as a half-orc! I enjoy role-play scenarios of all lengths and intensities, from quick romps to episodic romances! My only preference is that you indulge your favorite kinks when you're with me! I have many of my own and likely share yours! 🌺Aloha!🌺

most brutal kind. But then along comes Snaggletusk, a.k.a. Jasmine, and turns everything you thought about orcs (or at least half-orcs) on its head.

This green-skinned vixen has the sexual aggression of her orcish side tempered with a bright and enthusiastic demeanor that makes her a witch's potion of spicy and sweet. She presents the opportunity to experience a very different kind of lover, from which you don't know quite what to expect. From the pale emerald of her skin to the deep, dark copper of her eyes she's intensely exotic, the wild femininity she exudes as intoxicating as any siren's.

Yet for all her otherworldly charm there is a sensitivity to Snaggletusk that seems to spring directly from her mixed heritage. She is a woman caught between two very different worlds, part of both yet belonging to neither. A bridge between enemy species, and a living insight into the raw sensuality of the orcish race.

Ultimately Snaggletusk could be seen as the very personification of this special time of year. Playful, naughty, a challenge to our conventions, and perhaps just a little bit scary too. She's the both the trick and the treat of the Halloween spirit, and a lover any true adventurer would seek to enjoy. ❤️

Roleplay Made Easy

The simple, fun, and sexy way to explore erotic roleplay.

By Brianne

If you're looking to spice things up online, combining your fantasies with your unbridled imagination might be the perfect thing for you. Roleplaying, in which partners take on new identities to fulfill a naughty fantasy, can be both far more fun and meaningful than your stereotypical "sexy boss and secretary" scenario.

Roleplay can take on many forms and reflects values and desires that are often entirely oppositional to those you pride yourself on in real life. In fact the most appealing roles are often those that stray most significantly from our lived reality. If you manage great responsibility at work or at home, you may derive great pleasure from indulging in a submissive role. And if you spend most of your days catering to everyone

else's needs, playing a selfish role may be the perfect sensual escape.

Erotic roleplaying is also an amazing way to act out your deepest desires while exploring taboo subjects, and will help you to connect with your partner in a fun and loving way since it requires deep communication. So why aren't more people into it?

Even for the biggest lovers of make-believe among us, it's not uncommon to feel self-conscious or even silly when you first try to take on a role. So if you're curious about roleplaying but don't know quite where to start, this article will walk you through a few simple steps to not only help you drop your inhibitions, but embrace the sheer fun of naughty roleplay.

Figure Out Your Fantasy

Whether you opt to have a thrilling one-night stand with a mysterious stranger, plan a tryst with a forbidden lover, or hook up with a supernatural being on this Halloween night, the possibilities for roleplay are literally endless.

Some common roles involve escorts, athletes, cheerleaders, cops, teachers, doctors, tradespeople, strippers, and dominatrixes. Scenarios might involve love affairs, casual hook-ups, threesomes, hitchhiking, rewards or punishment, blackmail, photo shoots, travel, humiliation, teasing, homosexual encounters or dominance and submission.

Just don't get hung up on mainstream ideas. The pizza delivery guy and the French maid might sound like a hot routine, but pushing your limits and engaging in your real fantasies is always more rewarding.

Negotiate Your Boundaries

Though you can't get physically hurt playing online, the wrong scene can not only be joyless, but poke at painful insecurities that are decidedly unpleasant.

Whatever parts you decide to play, discuss them with

your lover ahead of time to negotiate boundaries and offer reassurance as needed. And if there are words, scenarios, or phrases with which you're uncomfortable, simply steer clear of them.

Set the Scene

Not sure where to start? Here are three "classic" scenes that are perfect for beginners:

Example #1: Meet a "stranger" in a bar and pretend to be cheating on a spouse on a business trip. You can even orchestrate an elaborate plot to meet out at an actual hotel bar, choose fake names, even orchestrate an elaborate plot to meet out at an actual 3DX club, clad in alts to add that extra dimension of realism. Have fun flirting right out in local chat—it's a great high that will help you get invested in the scene without any real risk.

Example #2: Someone can pretend to be a naughty student caught cheating by a dean. Punishment can be a spanking over the knee and having to write out an apology in a composition notebook while "servicing" the dean.

Example #3: Employee/employer. In this scenario, either can be the aggressor and you can get really creative as to who is blackmailing or manipulating the other. The moment of "truth" happens while having sex on a desk.

"...don't get hung up on mainstream ideas. The pizza delivery guy and the French maid might sound like a hot routine, but pushing your limits and engaging in your real fantasies is always more rewarding."

There's a reason these particular scenarios work for so many people. They're fun because they allows for exploration of different roles with different power structures, locations, and personality traits that might not be your dominant or preferred ones.

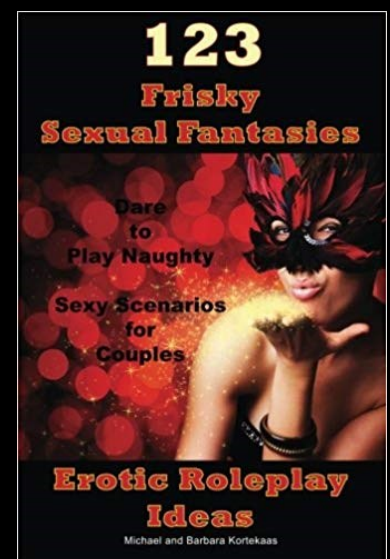

In this way, you can try something on for size and see what you like and don't like about it. Be as creative and prop-driven as you like. Elaborate role plays can last weeks in different locations with all kinds of moving parts, and simple ones can be as easy as a few lines shared between you to set the tone.

Whether you're a complete beginner, or about to roleplay for the first time with a new lover, it makes sense to start out with a simple scenario in which both participants have a good level of comfort with their roles. For those already comfortable with roleplaying, try making it as public as possible, using lots of props or costumes, different locations, and different contingencies where you both need to ad-lib on the fly.

But no matter what you end up roleplaying, the most

important thing is to relax and just have fun. Don't get caught up in doing anything perfectly, but don't hold back either. Commit to a role and give it all you have. It's supposed to be make-believe, so trust your lover and just dive in to the scene. ♥

The 3DX Club Guide - Halloween

Everyday is Halloween at 3DX Chat's horror themed hard rock and metal club.
By JamieSweet

Halloween is one of the most unique and popular clubs on 3DX Chat, with its twisted horror theme, awesome stream of hard rock, heavy metal and industrial music, and a long list of innovative new DJs keeping things fresh. I had the opportunity to sit down with CardinalCopia, owner of the club, and ask him a few questions about his unusual formula for success.

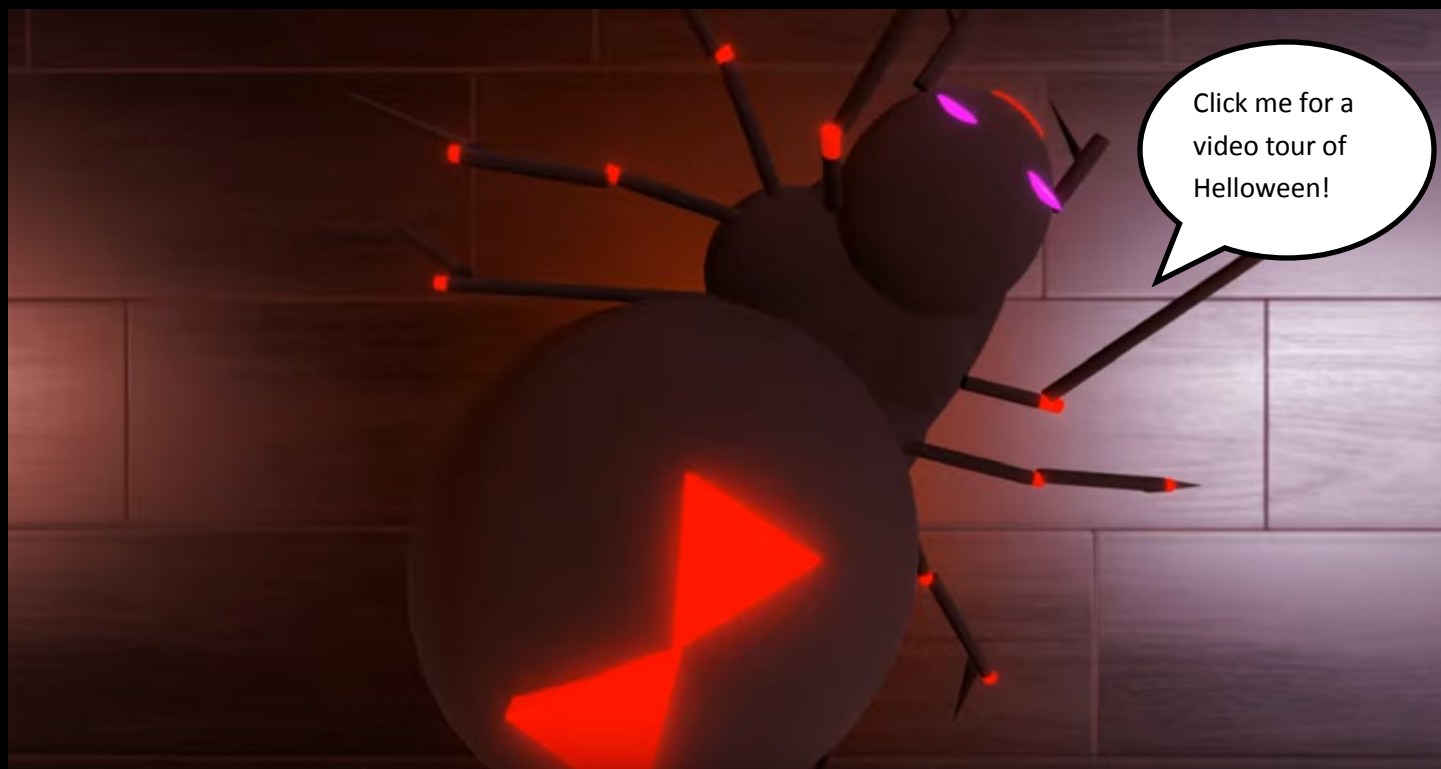

Cybersex: The first time I encountered Halloween it was nowhere near October. What inspired you to make a horror themed club?

CardinalCopia: The place was originally built by my friend xDeax, who made the room but never used it. I

kept asking her "Why don't you do something with this place? It's so weird and dark. It's right up my alley." Finally she just gave it to me. Since taking over there have been a lot of updates to the room which we got to do together.

Cybersex: So what was it like starting out?

CardinalCopia: I was lucky in that I had a good circle of friends that supported me, and helped get others interested. I was the club's only DJ for quite awhile, but over time I've had the great experience of hosting several DJs, including a few where it was their very first experience. It was amazing to be able to share that

with them. To hear their very first set ever.

Cybersex: Sounds like you have a great relationship with your DJs.

CardinalCopia: Oh yeah. Biffy and Binka were some of the first to play at Helloween. Then Sinthea and Lillian-Langtre. And tomorrow night Danididit will be playing for the very first time as well.

Cybersex: Would you say that at this point Helloween's audience is mostly a regular group of fans, or do you get a lot of new people in due to how unusual the club is?

CardinalCopia: I'd say it's a great mix of both. There are many faces I see every time I open up, but I also love all the new people that come in to check out the music and room. I'll be opening every Tuesday night in October, and we're planning a big Halloween party which I'll be announcing soon.

Cybersex: I know Helloween already has a ton of props, including a whole graveyard up on the club roof. Every time I go in there it seems there's something new. Do you plan to just keep on expanding?

CardinalCopia: I think there will continue to be minor additions over time. Just today I added gloryholes to the club. But I don't foresee us making any huge changes.

Cybersex: Gloryholes? How much sex happens at Helloween? Seems like a bit of a creepy place to be getting it on.

CardinalCopia: I would say it happens a lot more than I ever expected it would. People want to explore what it's like to have sex in a morgue, coffin or on top of a grave, I guess.

Cybersex: What would you say has been the most fun thing about running Helloween so far?

CardinalCopia: For me it's all about having people that enjoy modern hard rock and metal, finding a place that caters to their music. I hear so often that there are not enough metal rooms, so it's nice for them to

come in and maybe become a future regular!

There's also the awesome experience I mentioned earlier about getting to be there when someone DJs for the first time, and for them to be doing so in my club. I love to see how excited they get when they get a crowd in to listen to them.

Cybersex: Is there anything you don't like about running Helloween?

CardinalCopia: Sometimes I want to go run around and check out other rooms. To see what other people are doing that evening. But that's the only downside and it's a pretty minor complaint. I've been opening once a week for months now and DJing at a lot of other clubs, which helps keep me in touch with the 3DX music community.

Cybersex: Do you have any advice for anyone wanting to build up a popular club on 3DX Chat?

CardinalCopia: I think for me sticking to a genre of music really made for more regulars at Helloween. The downside is that now if we play anything other than hard rock and metal people start complaining. I think it really does help to pick and stick with a genre you can get known for, though.

Cybersex: Is there anything you'd like to say to your club's fans before we end this interview?

CardinalCopia: What I think is so cool about doing the metal and hard rock genre is that the fans really stick together. You see that in real life, and you see that here in 3DX as well. People are passionate about their love of music, and it's so great that we can share all our old favorites as well as the new stuff together. It's just the greatest. ❤️
